PRODUCT INTRODUCTION

Deep-line, Non-migrating Dermal Fillers

MILKY ANGEL (2 ML)
Deep Line / Large Molecular

Core Component:

Collagen, Hyaluronic Acid,PLLA microspheres 18%-20% (stimulates the body's own collagen synthesis, providing both physical support and bio-activation), Cross linked Hyaluronic Acid.

Effect Duration & Timeline:

Becomes more natural in 1-2 weeks, reaching its best state at 9-18 months. Results typically last 1.5 to 2 years, though this varies based on individual metabolism and physique.

Treatment Phases:

- Phase 1 (0-9 months): Provides immediate N lling and sculpting with optimal support.
- Phase 2 (After 9 months): The material gradually metabolizes, but its collagen- stimulating eP ect continues. Some slight settling in the treated area may occur.

Application Areas:

Nose, Brow Bone, Chin.

Advantages:

Excellent support.

This filler corrects facial depressions, demonstrates strong cohesive properties with inherent resistance to migration, and promotes the regeneration of the body's own collagen.

PIG COLLAGEN (2 ML)
Drem / Medium Molecular

Core Component:

Collagen, Hyaluronic Acid (contains a minimal amount of cross-linking agent). A 3.5% collagen solution, consisting of 85% Type I and 15% Type III collagen.

Effect Duration & Timeline:

Duration of effect varies depending on one's metabolism: approximately 6 months for fast metabolizers, and potentially up to 12 months for slow metabolizers.

Post-Treatment Guide: What to Do & Avoid

Consistent adherence to strict sun protection, avoiding excessive friction on the neck, and regular use of restorative neck masks can extend the results to nearly 12 months. Conversely, improper care (such as prolonged sun exposure and frequently looking down) may reduce the duration to as little as 6 months or even shorter.

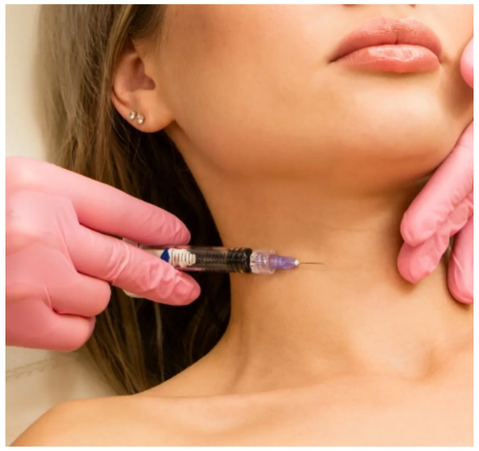

Application Areas:

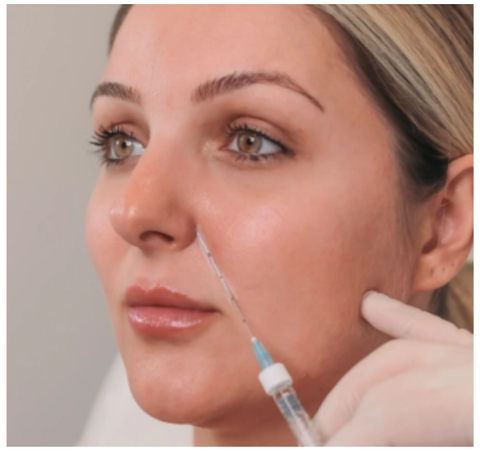

Periorbital Lines ， Neck Lines ， Nasolabial Folds.

Advantages:

Natural beauty.
It works to smooth away wrinkles, plump the face, and revitalize skin texture—revealing a more youthful complexion. It also helps soften rough hands and enhance facial contours by boosting your natural collagen production.

HI-BODY (2 ML)
Fine/Small Molecular

Core Component:

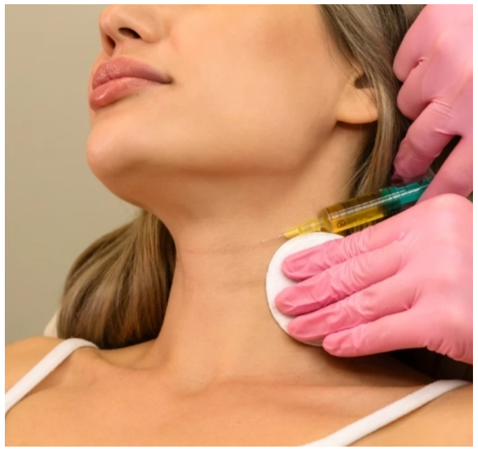

Collagen, Hyaluronic Acid,70% Non-Crosslinked Sodium Hyaluronate, 10% Cross-linking Agent, a Blend of Amino Acids, Vitamin B12, and Carnosine.

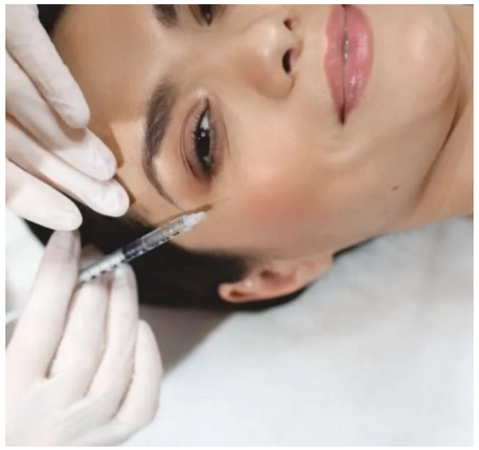

Effect Duration & Timeline:

Duration of effect varies depending on one's metabolism: approximately 6 months for fast metabolizers, and potentially up to 12 months for slow metabolizers.

Post-Treatment Guide: What to Do & Avoid :

Consistent adherence to strict sun protection, avoiding excessive friction on the neck, and regular use of restorative neck masks can extend the results to nearly 12 months. Conversely, improper care (such as prolonged sun exposure and frequently looking down) may reduce the duration to as little as 6 months or even shorter.

Application Areas:

Neck Wrinkles, Tear Trough Rejuvenation, Eye Wrinkles, Smile Lines, Static Wrinkles, Frown Lines, and Dark Circle Diminishment.

Advantages:

This triple-action technology leverages hyaluronic acid for deep hydration, amino acids to stimulate collagen regeneration, and L-carnosine to combat oxidative stress. It precisely targets neck lines, facial fine lines, and dryness, delivering multi-dimensional anti-aging and significant skin improvement.

NON CROSSLINKED HYALURONIC ACID C (1 ML)
Fine / Small Molecular

Core Component:

Powered by poly-L-lactic acid (PLLA) as its star ingredient.

Effect Duration & Timeline:

The duration of effect following a single treatment session is 6 to 12 months, though this period is subject to variation based on the following individual factors.

Product Benefits:

Goes beyond anti-aging to tackle enlarged pores, dullness, and acne scars. Our patented PLLA-CMC-Mannitol complex is clinically proven to increase skin tightness by 30% in 1-3 months, strengthen the skin barrier, and lock in essential moisture for a transformed complexion.

Application Areas:

Neck Wrinkles, Tear Trough Rejuvenation, Eye Wrinkles, Smile Lines, Static Wrinkles, Frown Lines, and Dark Circle Diminishment.

Advantages:

The dual action of dermal volumizing and anti-aging correction effectively addresses enlarged pores, skin dullness, and the appearance of post-acne scarring.
